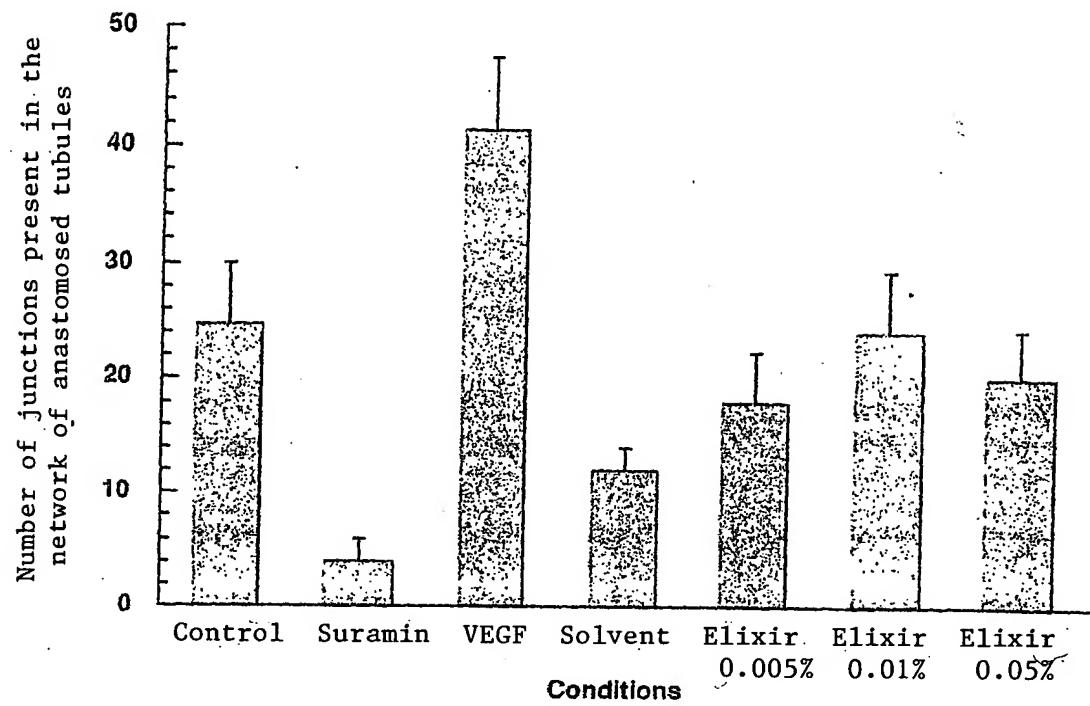

Figure 4

Conditions	Modulation factors of the length of the tubules (% of the control or solvent)
Suramin	- 49 %
VEGF	+ 54 %
Composition example III 0.005%	+ 6 % (NS)
Composition example III 0.01%	+ 11 % (NS)
Composition example III 0.05%	+ 6 % (NS)

Figure 5

Conditions	Modulation factors of the number of junctions in relation to the control/solvent
Suramin	- 5,7
VEGF	+ 1,7
Composition example III 0.005%	+ 1,5
Composition example III 0.01%	+ 2
Composition example III 0.05%	+ 1,6
